Introduces Chamo, a New Social OPAC with Drupal Support

What is Chamo?

Chamo is a new social OPAC to lets users discover materials quickly, using familiar search methods such as Quick Search and faceted result links. Users can place requests. Relevancy ranking and various sorts are supported. Refining a search is as easy as picking a facet from a list or typing additional terms. Advanced searches, multiple filters simultaneously.

Users can add personal comments using reviews, ratings, and social tagging. RSS feeds inform patrons of newly added materials. Users can create multiple lists and then use these lists to print, e-mail, place holds, or request materials from the stacks. In addition, users can save their favorite search, which Chamo will remember and will execute automatically when users sign back on.
## Features

- Social Tagging and Staff Monitoring
- Social links to Facebook, Twitter, etc. via AddThis
- Library Controls Access to Social Sites
- User Reviews and Staff Monitoring
- User Ratings
- User-defined Facets
- Facet Refinement

---

## Features

- User Self Registration with immediate access
- User Updates of Contact Information
- Remember My Search
- Reading Lists
- RSS Feed for new additions
- Email Cart/List Contents
- Integration with QuikBib for Citations
- Integration with Syndetics
- Integration with Google Books
- Integration with Google Analytics
### Chamo Development Process

As a patron, I want to be able to change my password.

As a staff user, I want to leave a message for a patron.

As an ADMIN, I want to define a facet.

A patron can change their password
A staff user can leave a message for a patron
An ADMIN user can configure a facet

### Supported Environments

- Linux/x86
- Linux/x64
- Solaris/x86
- Solaris/SPARC
- Red Hat Linux 5.0 or higher
  - Apache 2.2.11 (bundled with Red Hat)
- MySQL (bundled with Red Hat)
- Sun Java 6
- Virtua Version 2010.1 or later
- **PHP 5.2.9** (if you’re using Drupal)
